

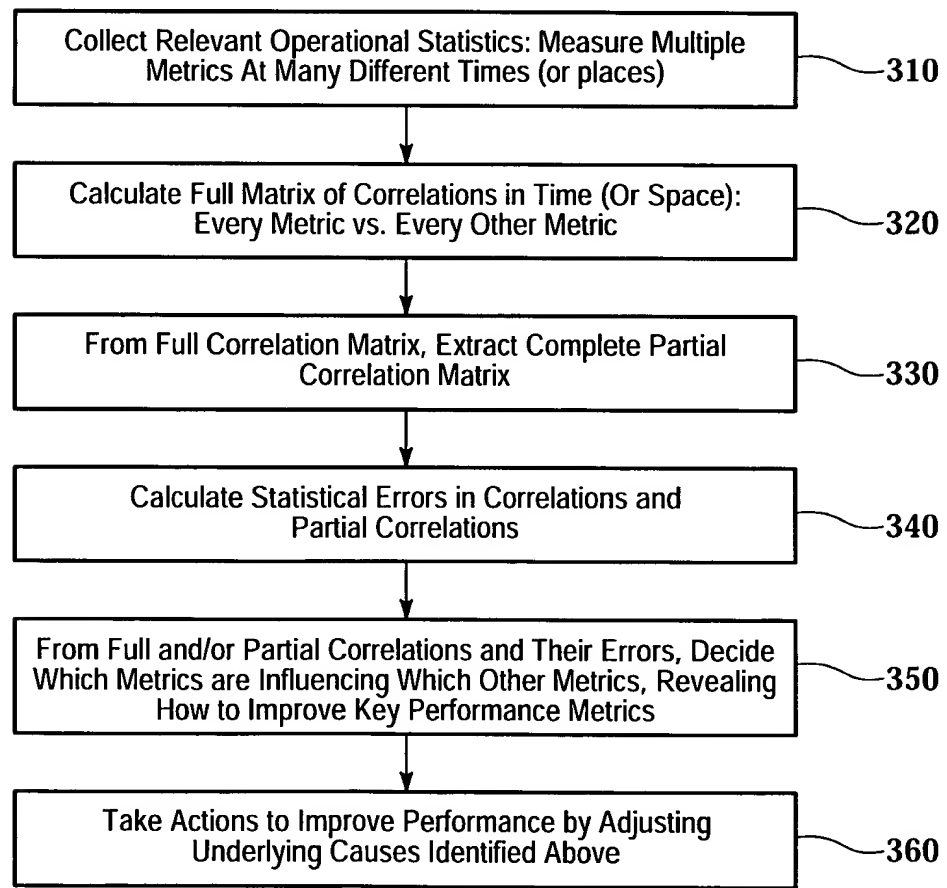

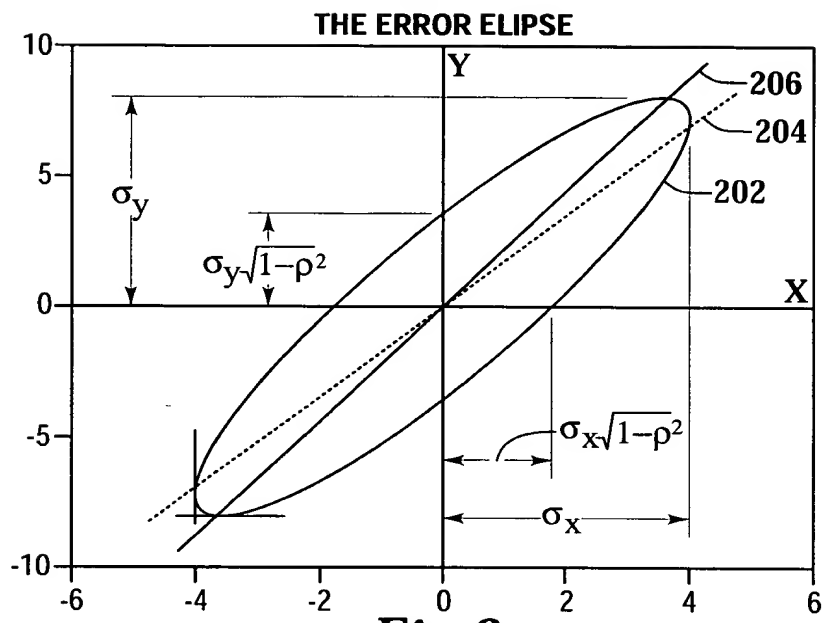

Fig.1

100217 82968660

A scatter plot showing the relationship between 'Designation Failures' (x-axis) and 'Dropped HOs' (y-axis). Both axes range from 0 to 0.015. The plot contains numerous data points represented by small crosses. A solid black ellipse is drawn around the central cluster of points, indicating a region of high density. In the upper-left corner of the plot area, the following statistics are displayed: Correll= 0.503 and PartC= 0.381.

Correll= 0.509
PartC= 0.39

Dropped HOs

Digital Page Failures

Correll = 0.398
PartC = 0.191
